Serial No. **10/809,533**
Filing Date: **March 25, 2004**

Assignee hereby disclaims, except as provided below, the terminal part of any patent granted on the '533 Patent Application which would extend beyond the expiration date of the full statutory term defined in 35 U.S.C. §154 to §156 and §173, and as the term of said prior patent is presently shortened by any terminal disclaimer, of U.S. Patent No. 6,729,656. Assignee hereby agrees that any patent so granted on the '533 Patent Application shall be enforceable only for and during such period that it and the '656 Patent are commonly owned. This agreement runs with any patent granted on the instant application and is binding upon the Grantee, its successors or assigns.

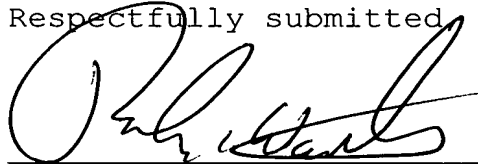

In making the above disclaimer, Assignee does not disclaim the terminal part of any patent granted on the instant application that would extend to the expiration date of the full statutory term as defined in 35 U.S.C. §154 to §156 and §173 of the prior patent, as the term of said prior patent is presently shortened by any terminal disclaimer, in the event that it later expires for failure to pay a maintenance fee, is held unenforceable, is found invalid by a court of competent jurisdiction, is statutorily disclaimed in whole or terminally disclaimed under 37 C.F.R. § 1.321, has all claims cancelled by a reexamination certificate, is reissued, or is in any manner terminated prior to the expiration of its full statutory term.
